

CAGAYAN STATE UNIVERSITY

College of Medicine- Carig Campus, Tuguegarao City, Cagayan

The Cagayan State University, locally known as CSU, is the second largest institution of higher learning in the Cagayan Valley Region, in terms of enrolment and number of curricular program offering.

History

The College was founded in 1993 and it is strategically located at its main campus in Tuguegarao City. The CSU college of Medicine envisions itself as a centre of excellence in the region and in the country by providing the highest medical education to the health needs of the people. The first batch of students registered 100% in the licensure examination in 1999, thus, corresponding to its ardent vision of attaining quality medical education.

Infrastructure & Departments

The college of Medicine complex provides spacious air conditioned lecture rooms for medical sciences and laboratories. There are around 10,400 college students in the university. Approximately 600 are graduate students while the rest are undergraduates. Additionally, overhead projectors and LCDs are available for seminars and lecture workshops for productive learning.

Security Service which is maintained by efficient security force to ensure safety of students and the academic community. The university also provides free medical and dental check up facilities. Minor ailments are also treated at the medical and dental clinic.

Library

The college of medicine is equipped with the latest facilities, alongside an extensively maintained medicine library which houses ample stocks of the latest books and publications in the field of medical science.

Climate

Cagayan has a tropical climate together with the rest of the Philippines. The average temperature whole year round is 28 C (82 F).
